COLOR HARDENER

Dura-Color Hardeners

Dry-shake Color Hardeners come as powders that are hand broadcast onto the freshly placed concrete and then worked into the surface with a float or trowel. It is durable enough for high traffic areas. In addition to adding color to concrete, it makes a great base for stamped concrete.

WATER-BASED ACRYLIC STAIN

Dura-Color EZ-Accent Water-Based Stain

Proline Dura Color EZ-Accent is a water-based acrylic stain that is specially formulated to accent any decorative

concrete surface. It is a translucent stain that is designed to blend with the base color over which it is applied. EZ-Accent is quickly and easily applied to decorative concrete flatwork, vertical surfaces and rockscaped for accent colors and natural-looking variations. There are 15 standard EZ-Accent colors. Sold in 1 gallon containers with coverage between 200 and 500 square feet per gallon.

Decorative Concrete Products

ACID STAIN

Dura-Stain Chemical Acid Stain

Chemical, or Reactive Stains, can be applied to new or old, plain or colored and stamped concrete surfaces. Chemical Stains penetrates and permanently stains new or existing concrete and wears only as the concrete wears. Use a reactive stain for creative faux finishes, permanent and variegated colors, no chipping or peeling and lasting results.

(Colors show Dura-Stain over white concrete and Dura-Stain over gray concrete)

ANTIQUING WASH

EZ-Tique Water-Based Antiquing Wash

This versatile coloring agent is easily applied and will hold fast to any textured concrete surface. This powder is designed to mix with water and be applied as a liquid wash coat. Can be used to revitalize a weathered concrete surface or add an antique color to a freshly textured surface. It goes on quickly and easily and can be removed readily for greater control of the coloring process. This product is water-based, non-hazardous and zero V.O.C.

Decorative Concrete Products

SOLID COLOR CONCRETE STAIN

Restore and decorate your concrete with **The ORIGINAL Solid Color Stain™**, a premium water-based decorative concrete stain made especially for use with existing, unsealed, interior or exterior concrete surfaces. ORIGINAL Solid Color Stain is NOT a paint. The advanced polymer-modified formula penetrates the surface of porous concrete (as deep as the surface pores) and forms an opaque (solid), breathable finish that requires no sealer.

It may be used on a variety of substrates, including concrete, masonry, pavers, brick and stucco. Not recommended for non-porous substrates, e.g. metal, porcelain, glass, fiberglass.

Available in 20 standard Colors.

Decorative Concrete Products

TRANSLUCENT COLOR ENHANCER™

Translucent Color Enhancer™ is a premium grade and translucent (non-solid) concrete color stain designed to be used over the Solid Color Stain in a contrasting color. The Translucent Color Enhancer is NOT a paint. It is a polymer-modified, water-based, non-reactive, non-acrylic, penetrating and breathable concrete color stain. It is used to tint or enhance areas of relief, texture or stamped concrete surfaces to create an antiqued look. It is also used to create a faux finish by blending and layering multiple Translucent Color Enhancer colors. Comes in a unique 3-part kit. Available in all 20 standard colors.

Popular Translucent Color Enhancer™ Color Combinations

Using the Enhancer--Step 1: Stain stamped concrete with the ORIGINAL Solid Color Stain. Step 2: Apply an even, liberal coat of Translucent Color Enhancer using a sprayer or NewLook Applicator Brush. (See examples below).

STOCK COLORS:

CONCRETE STAIN

Restore, decorate and revitalize concrete and masonry floors using **NewLook's SmartColor™**, a premium water-based nano-acrylic

stain. It is water-submersible, alkali, weather and UV light resistant. The environmentally friendly formula is the safe, user-friendly alternative to hazardous and unreliable solvent or acid-based stains. SmartColor stains require a top coat and are compatible with solvent-based, water-based, single and two component products, including but not limited to acrylics, epoxies and urethane sealers.

Decorative Concrete Products

CONCRETE STAIN

CSI ReStore Concrete Stain is a non-hazardous, ultra-low VOC water-based penetrating concrete stain free of acid or acrylic. These products make it easy to rejuvenate colored surfaces or plain gray concrete by minimizing discolorations without altering surface texture. CSI ReStore Concrete Stain consists of two products:

- CSI ReStore Solid Color Stain is a polymer-modified, water-based, high-quality solid color concrete stain that penetrates the surface of concrete, forming an opaque, breathable finish that does not require a sealer.
- CSI ReStore Translucent Stain is used over CSI ReStore Solid Color Stain in a contrasting color to produce an antiquing effect.

SAMPLE COLOR SELECTION

Color samples shown represent the 16 most popular colors. Refer to CSI/Helix color charts for additional selections, or we can match any custom color as well.

CONCRETE DYE

CSI Concrete Dye is a combination of specialty formulated dye / metal complexes concentrated in a water-based LOW VOC solution that can be diluted in water, alcohol, or acetone. Since CSI Concrete Dye is a concentrate solution, not a dispersion, it is ready for immediate use without any dwell or reaction

time like dye powder concentrates. When applied to prepared concrete, polished concrete or overlays, CSI Concrete Dye will provide intense, translucent color effects, similar to stains, without creating a film or coating that can be worn away. CSI Concrete Dye is available in 16 standard colors.

Decorative Concrete Products

QUICKETCH™

QuickEtch™ is a bio-degradable concrete etching compound specifically designed to profile the surfaces of both green

(fresh) and mature concrete. The depth of the etching achieved with this product is the same as hydrochloric or muriatic acid with 80% less odor and a more uniform etch than liquid etch materials. Safer to use than hydrochloric or muriatic acid, the residue is easily removed by rinsing with water. The gelled form of NewLook QuickEtch™ provides a profiling solution with low/no dust compared with sandblasting, grinding or shotblasting. Use QuickEtch with Modello's easy to-use stencils to etch a non-slip decorative pattern.

NLK04-QE1G 1 Gal. Quicketch Concrete Profiling Solution

DECORATIVE MASKING PATTERNS

The Perfect Union of

Modello's stock or custom-made **Decorative Masking Patterns™** allow you to design and maintain truly gorgeous decorative concrete finishes and customized decorative patterns with complete color control—creating the perfect union of color and design. Easy to Use! Just Peel, Stick and Stain.

- Custom-made and stock patterns available
- Custom sizes--large and small
- Medallion, tile, carpet, border and corner patterns
- Easy to use and install methods
- Easily duplicate faux acid stain effects and finishes
- No messy clean-up
- Use with QuickEtch™ for a no-slip decorative pattern

NewLook's SmartColor is the Official Stain of Modello Designs

WALLSTAIN™

WallStain™ is a highly premium, single component, non-yellowing acrylic emulsion stain designed

to color, seal and protect concrete and masonry surfaces, particularly vertical surfaces (e.g. retaining walls, concrete walls). WallStain's robust cure & seal formula will cure to a matte-satin finish that will resist stains, UV, abrasion and minimize hairline cracking, dusting and spalling. Available in 10 popular Solid or Translucent Colors.

EPOXY METALLIC FLOORING FINISH

EPOXY METALLIC SYSTEMS

Consists of a primer coat of Epoxy-Shell Tinted. Pigments are then mixed with Epoxy-Shell and applied on top of primer. A topcoat of Poly-Shell is recommended for additional chemical and abrasion resistance. Metallics are available in 9 colors that can be mixed to create hundreds of color combinations and custom looks.

APPLICATIONS

- Outstanding adhesion to a variety of substrates, including concrete, quarry tile and plywood floors
- Custom finishes
- Superior chemical resistance
- Excellent durability
- Easy application with slower dry times
- Self-leveling
- Commercial, retail or residential
- Showrooms, Salons, Restaurants, Cafeterias, Hotel Lobbies, Office building reception areas, Recreational rooms

TILE STAMPS

Square Tile Stamps

The look of tile, with the low cost and durability of concrete. We offer these stamps in your choice of three background textures- including our popular Italian Slate.

4" Granite Sets

6" Italian Style Slate

12" Flamed Granite Tile

12" Saltillo Mexican Tile

12" X 12" Belgium Slate Tile (Sand Grout Line)

24" x 24" New England Slate Tile

SANTA FE STAMP

Santa Fe Stone

Innovative interchangeable mats. A natural stone with a exclusive characteristic. Our Santa Fe Random Pattern comes in 3 sizes of stone- small, medium and large- with a light sandstone background. What makes this pattern unique is that the 3 sizes are interchangeable- for a truly random natural look.

DECORATIVE STAMP BORDERS

Proline Border Art is made to fit within a 12" border. We offer looks for everyone's taste and motif - from our groundbreaking Grapevine to our stately Fleur-de-Lis. Proline is a very dynamic company and is continuously adding to this line. Border Art pieces are inexpensive, easy to apply and give your job a highly customized look. Also, these pieces are easily colored with Proline's new EZ-Accent water-based stain.

Grapevine Border Art

Designed to fit within a 12" border, our Grapevine Border Art adds a refreshing look to any patio. Consider this piece as a backsplash to your concrete countertop or in a bar area. This stamp can be used on a radius. Perfect for the wine connoisseur, a Tuscany motif or Mediterranean style. Size: 10" x 60"

Grapevine Border Art Corner Accent Piece

This is a matching corner accent to our Grapevine Border Art, to be used as a set yet it is lovely enough to stand alone. Size: 19" length 25" width

ARCHITECTURAL CONCRETE FORM LINERS

GREENSTREAK

Because of its strength and versatility, concrete continues to gain popularity as the building material of choice. More and more, owners, designers and contractors refuse to settle for plain, unadorned concrete.

Greenstreak Form Liners provide an economical means for adding interest and visual appeal to almost any concrete structure. The applications for Form Liners are limitless. Liners attach to almost any forming system or casting bed prior to concrete placement. Following normal placement practices and curing times, the forming system and liner are stripped leaving an architectural concrete finish. Patterns are available in a variety of sizes and depths to achieve the best visual effect.

ARCHITECTURAL CONCRETE FORM LINERS

Formliners create textured concrete, saving time, labor and material by providing structural and architectural functions in a single medium. This accelerates the construction process and minimizes costs. There are hundreds of standard patterns available, but when a project calls for something unique, we can provide custom formliners based on your design or digital image.

There are dozens of standard block, brick, fluted, fractured, stone, wood and other patterns available.

Decorative Concrete Products

ARCHITECTURAL CONCRETE FORM LINERS

KFS Formliner is a re-useable foam formliner, with advantages in weight, ease of use and price. KFS Formliner is an economical solution for any project. For all jobs large and small, we have the solutions to your formliner requirements.

KFS Karlson Forming Specialties, Inc.

Lettering and 2-D logos can be cutout of foam for single uses or plastic for multiple uses.

MARMBCA36-KIT 36" Auto Glide Broom Kit - Includes Black, Green, & Orange Brushes in Heavy Duty Case

CONCRETE FINISHING SYSTEM

Chameleon Trac II™ Rope Brush

The only patented handleless concrete Finishing Brush on the market, eliminating width restrictions! Excellent in confined areas or on wide pours where handles are awkward or won't reach.

MARMBCT4KIT 4' Chameleon Trac II Concrete Finishing Broom Kit

CONCRETE FINISHER'S BRUSH

LB190 Soft Horsehair Brush

Bristles staple set in clear lacquered hardwood block. Two rows of soft horsehair make this an ideal brush for applying a fine brush finish on small area concrete jobs such as patch jobs, concrete stairs and concrete curbs. Block size: 12" long, Length of Trim: 2".

Decorative Concrete Products

TK-EPOXY COLOR SYSTEM

A two-component epoxy color coating for use on concrete, wood or metal: it is particularly well suited for interior

use on concrete floors subjected to heavy traffic, and/or harsh chemicals or corrosive attack. The blended materials form a penetrating, high strength coating resistant to abrasion from heavy traffic, and is unaffected by rubber burns. The high gloss finish is smooth, durable, and easy to clean.

TKEP1012	1/2 Gallon Unit - Light Gray
TKEP1001	1 Gallon Unit - Light Gray
TKEP1025	2 Gallon Unit - Light Gray
TKEP1010	10 Gallon Unit - Light Gray

Additional Colors Available!

Due to shade variations associated with printing limitations, we suggest that you review samples for actual color.

URETHANE TOPCOAT

For enhanced chemical and abrasion resistance!

TK-1606 TRI-THANE

A clear, glossy, non-yellowing urethane, specially designed for floor finishing. It forms an extremely durable film with superior chemical and abrasion resistance. It can be used over acid stained floors and an excellent topcoat for TK-EPOXY COLOR SYSTEMS or TK-HI-TECH EPOXY.

Applied over Acid Stain

Applied over Epoxy Color System

TK EPOXY FLOOR CHIP KIT

TK-Epoxy Chip Kit

Can be used to beautify garage floors, basement floors, industrial areas or any interior area that low odor products need to be used. The kit is made up of HI-TECH EPOXY. First coat is Hi-Tech Colored, prepackaged chips to be broadcast over while wet, than Hi-Tech Epoxy Clear for a top coat. The high- gloss finish is smooth, durable, and easy to clean.

EPOXY CLEANER

TK-9901 - Epoxy Thinner and Cleaner. Tools need to be cleaned before the epoxy dries. 1 Gallon.

TEXTURE TOOLS

Texture rollers used with release agent add texture and accent color to your concrete.

This antique look greatly enhances Faux Brick stenciled concrete and all other decorative concrete. Roller Kits include: 1 large, 1 small roller and 2 texture mats.

ACCESSORIES:

- ARTRLRACSRV** 18" Stencil Roller Cover
- ARTRLRACSRFR** 18" Stencil Roller Frame

TEXTURE MAT TAMPER

CC928

Heavy Duty Texture Mat Tamper

Ideal for tamping texture mats and achieving the right amount of pressure on each mat. Rubber covered base prevents tearing or marring of texture mats. 11" x 11" cast iron/poly coated base. 48" hardwood handle.

RESURFACER

LifeTime FLOORS™

BEFORE:
Damaged Concrete Entryway

AFTER:
Restored Concrete Entryway

Apply credit card thickness of overlay to cover old and worn concrete or restore existing surfaces both interior and exterior. Resurfacer is the preferred material for spray textures and exterior applications. It is a two-part polymer-modified cementitious coating, consisting of a unique rubber-like polymer liquid and a cement aggregate blend. The material is applied in multiple coats at a typical thickness of 3/32 inch. It can be applied over almost any clean, sound surface including concrete, cement block, tile, metal and wood.

- LIF2000** 50 Lb. Bag Resurfacer (Microtop Base Coat) - Gray

KPI-KPUF01

Knee Pro Ultra Flex III Knee Pads

Hard Plastic outer shells are extremely strong. Non-Marking Grip-Strip on any surface. Speed clips snap easily into place for quick on-off. 1/2 inch closed cell inner foam pad offers the ultimate in comfort and protection. Hinged for ease of movement.

KNEE PADS

KPI-KPZG03

The Knee Pro™ Zero Gravity™ is

one of the lightest kneepads on the market today. Yet durable enough for many uses. Ideal for roofing, plumbing, flooring, tile, gardening, carpentry, electrical, home repair, maintenance, finishing work, etc.

KNEEBOARD

WL-069 "EZ-Kneeler"

A thermoplastic 2" thick rubber cushion securely fastened to 14" x 24" poly-propylene tray. Weighs only 2 lbs.

KNEEBOARD

MT6451

Kneeler Board

Extra large handle grips. Black foam pad securely fastened to generously sized polypropylene tray.

CONCRETE SLIDERS

CC-153

Knee boards made of lightweight, tough heavy duty polystyrene plastic. Easy to use and easy to clean. One size fits all. They are durable and easy to use. Knee pads are replaceable.

CONCRETE FLOOR POLISHING SYSTEM

Husqvarna Hiperfloor™ Concrete Polishing System

A revolutionary concept for the grinding and polishing of old and new concrete floors. Transforms concrete floors into highly abrasion-resistant, incredibly dense, smooth and visually appealing surfaces.

Available for Sale or Rental!

POLISHING UNIT

Husqvarna PG 680

An excellent choice for applications both large and small and especially commercial purposes. Smaller in size than the PG 820, the PG 680 is renowned for its maneuverability and ease of use without sacrificing power and output.

POLISHING UNIT

Husqvarna PG 820

The largest in the range of surface preparation and finishing machines. Equipped with Dual Drive Technology™ the PG 820 is among the market's most powerful and efficient machines.

VACUUM UNIT

Husqvarna DC 5500

Exceptional performance and industrial strength to meet even the most demanding industrial application where high suction and flow are required, to eliminate airborne dust. This highly mobile and versatile unit can be used for both wet and dry applications coupled with the Husqvarna PG 820 or PG 680.

HUS08-502570101 Dust Collection Bags For DC5500

DIAMOND POLISHING SEGMENTS

Available in single or twin rectangle or single or twin oval. Differentiated by their bond hardness, grit size, shape and the number of segments.

HUS08-543086405	G1113S S1 20 Grit Single Rectangular Metal Bond
HUS08-543086406	G1113D S1 20 Grit Dbl. Rectangular Metal Bond
HUS08-543086408	G1114D S1 30 Grit Dbl. Rectangular Metal Bond
HUS08-543086412	G1115D S1 60 Grit Dbl. Oval Metal Bond
HUS08-543086416	G1116D S1 120 Grit Dbl. Oval Metal Bond

HUS08-502532001	Velcro Backed Disc For Polishing Pads

GROUTING SYSTEM

GM 3000 is specifically formulated for re-grouting and hole filling in concrete surfaces. It's an inherent part of the Hiperfloor process. GM 3000 is effective for patching and filling small air pockets / pin holes when polishing concrete floors.

HUS08-543087161 5 Gal. Pail GM3000

Decorative Concrete Products

HIPERGUARD

Husqvarna HIPERFLOOR

Hiperguard Premium Enhance is a premium-grade surface impregnator which is used in the final step of the Hiperfloor process.

Hiperguard PE penetrates the concrete to form a film along the surface of the capillaries. This increases the surface tension of the floor, restricting the absorption of water, oil, fats and dirt. Stains are kept at the surface level, which simplifies maintenance and cleaning and extends the lifespan of the floor. Hiperguard PE also helps enhance the colour of the material being sealed.

POLISHGUARD

PROSOCO
SINCE 1939

Prosoco PolishGuard

Consolideck® PolishGuard is a durable, high-gloss, protective coating that dramatically increases the stain resistance of interior concrete floors. PolishGuard is ideal for steel-troweled, burnished, polished or decorative concrete and cement terrazzo floors that are exposed to accidental spills of food products, household cleaners and many industrial solutions.

This non-yellowing formulation enhances the appearance of standard gray, integrally colored, dyed, stained or color-hardened concrete floors.

DUST CONTAINMENT SHROUD

Dustbuddie Dust Containment Shroud

Fits most hand grinders. It captures up to 99% of airborne particles for outstanding dust control that preserves air quality and protects workers from harmful materials. Meet OSHA guidelines for worker safety with the industry's best dustless grinding system.

- DTSD1835** 5" Dust Buddie with Universal Arbor & 18" Hose
- DTSD1850** 7"- 9" Dust Buddie with Universal Arbor & 18" Hose
- DTSD1846** 5" Cut Buddie II Dust Shroud (#222000)

POWER MIXER

COL-X01 Professional Hand-Held Power Mixer

Optimum performance and perfect ergonomics. Easy to operate with a straight back and ergonomically shaped grip handles. State-of-the-art motor and gear unit components for long service and safety while working. 0 - 650 rpm.

Collomix

STONE POLISHER

Makita
INDUSTRIAL POWER TOOLS

PW5001C Wet Stone Polisher

Powerful 7.9 AMP motor and lightweight (4.6 lbs).

- Soft-Start feature for smooth start-up; variable speed.
- Housing cover protects the industrial die cast aluminum gear housing.
- Includes a ground fault circuit interrupter plug.
- Pre-setting dial (2,000 – 4,000 RPM).

Great for Concrete Countertops!

POLISHING PADS

5" Diamond Polishing Pads

Includes 5/8-11 Thread Backing Pad. 8 Polishing Pads (50, 80, 150, 300, 500, 1000, 2000, 3000 grits).

- | | |
|-----------------------|-----------------------------------|
| VANDVAZZ05000A | 5" Backing Pad w/ 5/8-11 Thread |

POLISHING PADS

VANH101R Diamond Polishing Pads

Set of 8 Foam Handpads (70, 120, 220, 400, 600, 800, 1800, 3500 grits).

DURO-POLISH

nox-crete

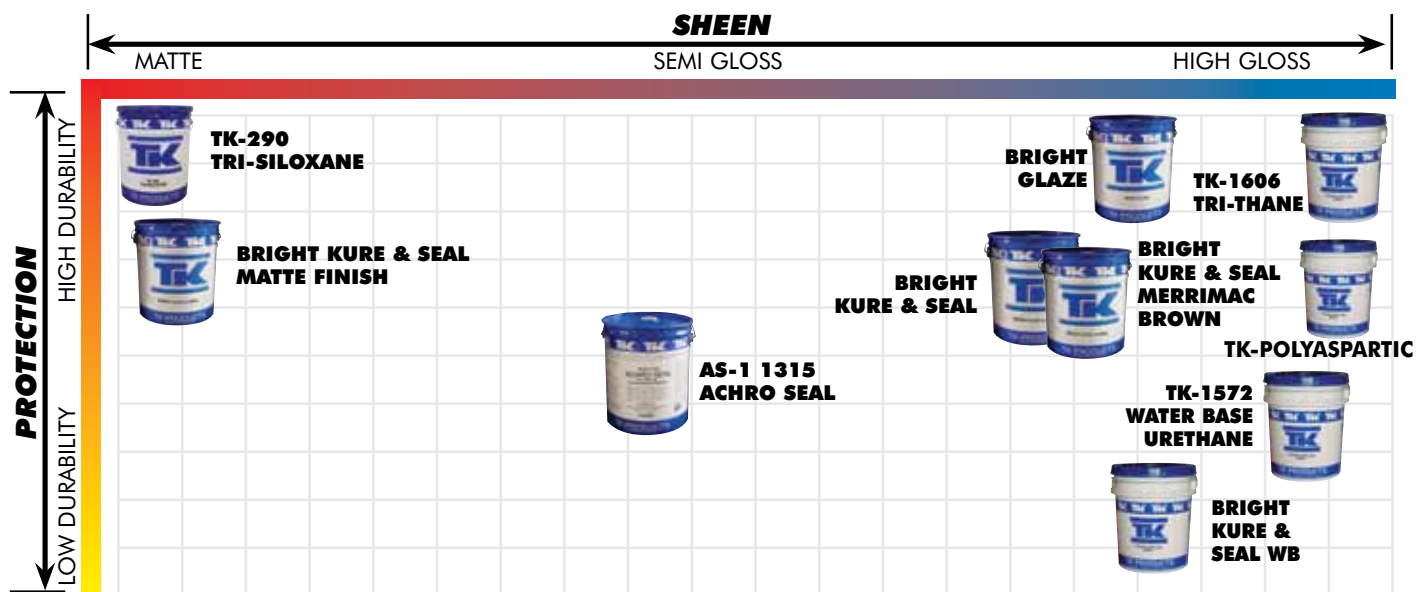

Duro-Polish Plus

Low molecular weight allows deep penetration, providing a hard, ultra-high gloss, non-slip, stain resistant finish. Provides stain protection from most common food and vehicular stain-causing agents, including vinegar, mustard oil and ketchup. Meets the static coefficient of friction requirements of ASTM D-2047. Maintains gloss through scrubbing and without buffing.

Decorative Concrete Products

DECORATIVE CONCRETE SEALER GUIDE

SOLVENT BASED

TK-290 TRI-SILOXANE is a solvent based, low viscosity oligomeric organosiloxane, one-component, deep penetrating, invisible, non-darkening water repellent for concrete and masonry. It eliminates the ever present moisture that had previously engulfed the cementitious substrate, thus eliminating spalling, freeze/thaw damage, and rebar corrosion. It penetrates up to 1/4 inch and becomes a permanent part of the substrate not allowing water to enter, but allows moisture vapor to pass out of the substrate. Coverage rate is 125 sq. ft. per gal. on most concrete substrates.

TKTRI01 1 Gallon, **TKTRI05** 5 Gallon, **TKTRI55** 55 Gallon

Bright Kure & Seal is a blend of 100% methyl methacrylate polymers used as a superior exposed aggregate cure, and final sealer and protective coating. Bright Seal is an excellent sealer for architectural concrete, terrazzo, brick, stone, slate, quarry tile, burnish block, or any cementitious material where yellowing or discoloration cannot be allowed. The coating is clear and does not yellow, degrade with age or exposure to ultraviolet rays. Coverage Rate: 100-400 sq. ft. per gal. depending on the porosity of the substrate.

TKBS01 1 Gallon, **TKBS05** 5 Gallon, **TKBS55** 55 Gallon

Bright Kure & Seal Matte Finish

Same as above with low luster.

TKBSM01 1 Gallon, **TKBSM05** 5 Gallon

Bright Kure & Seal Merrimac Brown same as above with brown dye added.

TKBSM05 5 Gallon-Merrimac Brown

Bright Glaze is a higher viscosity (thicker) version of Bright Kure & Seal. It is to be used when you are looking for a glossy one coat film. A blend of 100% methyl methacrylate polymers used as a specialized superior curing and sealing compound for exposed aggregate, colored stamped concrete and stenciled concrete. Coverage: Curing exposed aggregate 300-500 sq. ft. per gal.

TKBG01 1 Gallon, **TKBG05** 5 Gallon

AS-1 1315 ACHRO SEAL is a solvent based, clear, acrylic and methyl methacrylate resin curing, sealing and hardening compound for freshly placed and/or existing concrete, terrazzo, brick, stone, architectural concrete and other cementitious materials for either exterior or interior applications. AS-1 can be used for curing, sealing, abrasion resistance, ultra-violet ray resistance, and chemical resistance. Also available in white or grey pigment for exterior work. Coverage Rate: Curing and Sealing 300-600 sq. ft. per gal.

TKAS101 1 Gallon, **TKAS105** 5 Gallon, **TKAS155** 55 Gallon

WATER BASED

Bright Kure & Seal WB is a 100% water based, acrylic resin compound formulated to cure, seal, protect and dustproof concrete as well as to seal many types of porous tile and resilient floor. For both interior and exterior application. Coverage Rate: Curing and Sealing 150-250 sq. ft. per gal.

TKKUREWB01 1 Gallon, **TKKUREWB05** 5 Gallon
TKKUREWB55 55 Gallon

WATER BASED/URETHANE

TK-1572 URETHANE WB is a water borne aliphatic urethane dispersion specially designed to seal and protect interior and exterior concrete. It provides superior protection against water and abrasion versus water borne acrylics sealers. It dries to a full gloss while retaining the natural color of the concrete. Coverage Rate: 200-300 sq. ft. per gal.

TK157201 1 Gallon, **TK157205** 5 Gallon

TK-POLYASPARTIC is a two component, chemically resistant coating offering outstanding durability against scratching and abrasion. It incorporates a unique combination of flexibility and impact resistance, while maintaining excellent chemical and UV ray protection. It's fast drying time allows most projects to be completed in one day. TK-POLYASPARTIC is available in a clear formulation, or may be mixed with TK-1166 Tint to produce a wide variety of colors. May be used as a concrete floor coating to both protect and beautify floors. Average coverage rate for this product is 200 - 300 sq. ft. per gal.

URETHANE TOPCOAT

TK-1606 TRI-THANE is a clear, glossy, non-yellowing urethane, specially designed for floor finishing. It forms an extremely durable film with superior chemical and abrasion resistance. It can be used over acid stained floors and an excellent topcoat for TK-EPOXY COLOR SYSTEMS or TK-HI-TECH EPOXY. Surface needs to be completely free of all moisture. Concrete may need to be acid etched. Coverage: Apply at 200-300 sq. ft. per gal. If a second coat is desired, apply at 300-400 sq. ft. per gal.

CONCRETE SEALER

SmartSeal WB Waterborne Nano-Acrylic Sealer

Add life and longevity to your concrete with SmartSeal WB, a high-quality, 100% nano-acrylic, top coat sealer. Dries quickly and, once cured, creates an abrasion-resistant film that provides weatherproof protection against sun, rain, most acids, industrial chemicals, oil and grease.

NLK06-SSWB1G 1 Gal. Jug Smartseal WB - Gloss Finish
NLK06-SSWB5G 5 Gal. Pail Smartseal WB - Gloss Finish

CONCRETE CLEANER

Multi-Purpose Concrete Cleaner

A high-quality, multi-purpose cleaner and degreaser. The environmentally-friendly formula can be diluted with water to remove grease, oil, adhesive, dirt, food, soot, and more. Contains a powerful and natural vegetable-source solvent that is both safe and biodegradable.

NLK04-CLNR1G 1 Gal. Concrete Cleaner

COATING REMOVERS

EasyStrip™ 1000 & EasyStrip™ 2000 Coating Removers

Fast-acting concrete coating and paint removers designed for preparing concrete surfaces for NewLook decorative coatings and other decorative concrete products. They are VOC compliant, contain no TAPs or HAPs, offer easy clean-up with pressure washing, NewLook Concrete Degreaser™.

EasyStrip 1000: Great for removing most architectural coatings, including acrylics.

EasyStrip 2000: Great for removing most high performance coatings, including epoxies, urethanes and polyureas.

NLK05-ES10001G 1 Gal. EasyStrip 1000 Stripping Gel
NLK05-ES10005G 5 Gal. EasyStrip 1000 Stripping Gel
NLK05-ES20001G 1 Gal. EasyStrip 2000 Stripping Gel
NLK05-ES20005G 5 Gal. EasyStrip 2000 Stripping Gel

CONCRETE DEGREASER

Concrete Degreaser™

A proven, industrial strength degreasing solution that can be diluted with water depending on the strength needed. The water-based formula provides an economical, effective cleaner that removes grease, oil, transmission fluid, adhesive, soil and other foreign substances from concrete and masonry surfaces.

NLK04-DEG1G 1 Gal. Concrete Degreaser

CONCRETE CLEANER

Sure Klean® Heavy Duty Cleaner

General purpose acidic cleaner rids textured concrete of excess mortar, concrete splashes, heavy efflorescence, embedded stains, rust and more. Improves color depth and uniformity of standard and colored concrete.

PS10090-01 1 Gallon Container
PS10090-05 5 Gallon Container

CITRUS CLEANER

Citri-Clean

Environmentally safe, nontoxic. Dilute with water or use in concentrated form. Removes oil, grease, rubber marks and other contaminants. Also removes cures, sealers and cure/sealers.

UNX60001 1 Gallon Jug Citri-Clean Degreaser
UNX60005 5 Gallon Pail Citri-Clean Degreaser
Also available in 55 Gallon Containers

BONDING AGENT

TK-Tri-Bond

A liquid, ready-to-use, high build, re-emulsifiable bonding agent used for adhering gypsum plaster and portland cement mixtures to all types of structurally sound surfaces. Bonds mortar bed of ceramic tile to old walls and floors.

CONCRETE BONDING AGENT

Liquid Bonding Agent

An acrylic latex bonding agent and admix (in place of water) for cement mortar patching and resurfacing. Mixed with a cement/sand or gravel combination, it becomes an effective patching and topping mortar having excellent adhesion capabilities and resistance to abrasion, freeze/thaw cycling, industrial chemicals and deicing salts and chemicals.

FA2050 1 gallon container
FA2055 5 gallon container

BONDING AGENT

Weld-Crete® Concrete Bonding Agent

Bonds new concrete, stucco, tile setting beds and terrazzo to any structurally sound surface, interior or exterior. Use Weld-Crete's open time to your advantage in bonding to concrete shear walls when you need a time lapse between application of bonding agent, placement of reinforcement steel, placement of formwork and placement of concrete.

Decorative Concrete Products

STAMP RELEASE

TK-2090

A proprietary blend of oils and petroleum solvent that is used as a tool cleaning solution. Keeps both stamping and hand tools free from concrete build-up during use.

TK209005 5 Gallon Pail

LIQUID RELEASE

Dura-Liquid Release Agent

A parting agent designed to prevent stamping tools from sticking to the substrate. Creates a temporary, water-proof barrier between the fresh concrete and the textured mat. The barrier then evaporates quickly for easy cleanup. May also be pigmented and applied as a stain to enhance the 'antique' effect of textured finishes.

PRO99-LIQRELEASE5 5 Gal. Pail Liquid Release

CONCRETE BUILDUP & SPLATTER REMOVER

Blast-Off Extremely effective at dissolving concrete buildup and splatter without damaging or corroding exposed steel, chrome, aluminum or electrical components. Produces a thick, rich foam that clings to vertical and overhead surfaces.

NOXB010L Nox-Crete 2.64 Gal. Box

TK TRI-GRIP

A Non-Slip Synthetic Aggregate made up of Polypropylene sphere shaped particles. It creates a textured surface without sharp edges. They are clear, so unnoticeable on the floor. Can be used in sealers and stains.

TKTRIGRIP20 1lb. Container

TK-6000 CONCRETE SURFACE RETARDER

Applied to the surface of freshly placed concrete, it will chemically delay the set of the surface mortar. After 8-16 hours the surface mortar can be washed off exposing the surface aggregate.

TK600001 1 Gallon Container
TK600005 5 Gallon Container
TK600055 55 Gallon Container
